

Badiali & Partners

PLANNING EXCELLENCE

Our Expertise

TAX

Our highly specialized expertise in Tax Advisory distinguishes Badiali & Partners in the following areas:

- ④ preparation of annual financial statements and consolidated financial statements of numerous companies and groups operating at the international level
- ④ assistance to businesses regarding major tax and civil law obligations
- ④ consultancy and assistance in the assessment and subsequent tax assistance in special transactions
- ④ due diligence activities and assistance to clients in the analysis of target companies
- ④ management of tax disputes
- ④ tax profile analysis and optimization of the tax position of businesses

TAX CONSULTING IN DOMESTIC AND INTERNATIONAL FIELDS

The complexity and dynamics of the regulatory system require the continuous attention of our professionals in order to promptly keep our clients informed.

Badiali & Partners offers advice and assistance in both domestic and international areas of tax for the analysis and planning of corporate tax compliance and transfer pricing issues

We provide our clients assistance with drafting tax returns and in current dealings with the competent local authorities.

Through our network of professionals and collaborators, Badiali & Partners guarantees international references in the case of companies or branches residing abroad.

FISCAL AND TAX LITIGATION

Badiali & Partners offers consulting and assistance in settling tax disputes and managing tax litigation.

The proper proactive and negotiating management of relations with the Financial Administration represents one of the main aspects that is peculiar to the business-tax relationship. Badiali & Partners assists its clients in the management of such relationships and in the defense of the taxpayer at the litigation stage.

ACCOUNTING

Badiali & Partners, through a dedicated team, provides advice and assistance in the preparation and drafting of statutory and consolidated financial statements, as well as interim financial statements, cash flow forecasting, budgeting, and reporting.
