PLANNING EXCELLENCE

Our Expertise

ESG

Our firm has a vision strongly oriented towards sustainability, and we are committed to taking actions aligned with ESG standards, such as:

VISION

- ④ Energy efficiency, through the use of heat pumps and energy-efficient windows.
- ④ Reducing plastic usage by opting for alternative materials.
- ④ Employee training on soft skills, such as stress management, to promote the physical and mental well-being of our staff.
- ④ Promoting flexible work hours, valuing the autonomy and independence of our team members.
- ④ Adopting a code of ethics that guides the professional behavior of employees and collaborators, based on principles of fairness and respect.
- ④ Transparent governance, open to the contribution and inclusion of collaborators to foster continuous professional growth.

SUSTAINABILITY REPORT

We support companies in drawing up clear and transparent sustainability reports in compliance with CSRD and using ESRS

ABBREVIATED SUSTAINABILITY REPORT

We provide a specific service for SMEs that want to engage with ESG topics, allowing them to create sustainability reports that are proportionate to their size and business needs.

TRAINING AND AWARENESS

We offer workshops and seminars dedicated to ESG, helping companies understand how to integrate these practices into their business strategy to create lasting value.
